

Professional Service With Competitive Prices

Disability Discrimination Act (DDA)

Shops, restaurants and public buildings must be seen as catering for the disabled by way of providing easy access and special facilities.

Our wide range of automated door and access systems can ensure you meet the criteria.

Our knowledge and experience is our best
asset.

ACS provides:

- 24/7 Customer Service
- Emergency Service within Hours not days
- Trained and Certified Technicians
- DDA power assist door operators
- Automated Doors
- Automated Gates
- Access Controls
- Barrier Gates
- Retrofit and New Installations

All associated frame work undertaken

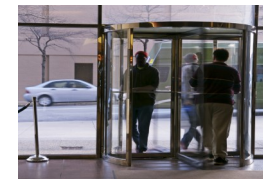

Area Covered:

Our service network coverage area includes all the South East of England.

ACS is not the biggest in the industry, but that doesn't mean it isn't the most capable. The company's traits have proven effective, which is why it has been successful despite the competition. The company's size allows for more personal attention to be given to clients.

Emergency Call Out

Should an unavoidable breakdown occur during normal working hours or out of hours, our committed team aims to

schedule an engineer to attend the site of a reported fault within 24 hours.

DDA Act

Automatic doors should be regularly maintained to ensure their safe operation as clearly stated in the Health and Safety Directive.

We offer preventative maintenance service agreements to keep your equipment working at its best.

ACS's specifically created annual Planned Maintenance Contracts include at least two pre-set call-outs per year and the peace of mind provided by our emergency support.
